Page 1

This is an 11-foot-by-13-foot hollow clay tile building sitting on a concrete foundation. It is located at the northwest corner of the ordnance area. Building 36 is a standard type structure built by R.D.M. from plan 652-323. It was built in 1942. The shed-roofed structure has a metal door on the south, small vent openings on the north and seems to be in good structural condition.
